Yes, they're fully scaled up - as much as they're going to be. It will probably be a 2-week response and I will be here this week. I definitely need you to be in the office tomorrow because apparently there was a deadline to order stuff from our ILA that I did not know about but Sandy is willing to work with me if we have everything in the system by tomorrow (which means you need to sign the form Cory is working on right now).

Thank you,

Deborah

Thank you Deborah I appreciate it. Are they fully scaled up over there? If you can work there tomorrow I can go into the office or there are things there that need handled. I should be back full time next week.

Good morning everyone,

I just wanted to let you all know that the EPA-Headquarters activated their EOC for the Gold King mine spill response. I will be in the EPA-EOC until further notice and the desk number is 202.250.8921 if you need to reach me for any reason.

I would also really appreciate knowing the R6 and R9 ATSDR Reps who will be responding.

Thank you very much,

Deborah Burgin
